The 10 Dimensions of Effective Leadership

The 10 Dimensions of Effective Leadership is a Leadership Course designed for seasoned leaders to increase their effectiveness in guiding their people through the accelerating pace of change and disruption. The course focusses on developing a deep understanding of yourself, your strengths and opportunities to positively impact your team performance and culture. With a strong focus on leadership agility and positive impact on your followers, you learn how to enhance the 10 most impactful dimensions of your leadership.

The learning experience is built around the leadership style of each individual attendee, so participating leaders will learn how to make the most of their own levels of Intensity, Assertiveness, Risk Tolerance, Adaptability, Decision Making style, Collaboration, Social Awareness and Empathy, Openness to build Authenticity and their own intrinsic motivators as well as developing awareness around motivation and engagement of the team.

This is most suited for experienced leaders looking ahead to lead their teams through the VUCA environment, and is a natural next step from our existing Leadership Development course. However, this course will accelerate the development of emerging leaders and the completion of the Leadership Development course is not a prerequisite.

During this Leadership Development course you will complete the REACH Personality Profiling tool, which will provide you with insight into your preferred communication style and how best to communicate with others. This newly found awareness will empower you with the ability to connect better with others and can provide you with an improved level of interpersonal communication and leadership skills.
