Microsoft 365 Copilot for PowerPoint - Online

1300 121 400

[REQUEST QUOTE](#)

0.5 DAY COURSE

Unlock the full potential of Microsoft 365 Copilot in PowerPoint with this practical, instructor-led online training. Designed for professionals and teams looking to enhance their presentation skills with AI, this course walks you through every stage of using Copilot from setup to slide design.

You'll begin by understanding what Copilot is, how it's licensed, and how to use guides, prompt structures, and the mobile app. Then, dive into the Copilot interface, including accessing settings, navigating the Copilot pane and using prompt galleries and bookmarks effectively.

Learn how to generate compelling presentations from prompts, outlines, or Word documents, and discover techniques to structure your content with clarity. You'll also explore how to use Copilot to organise slides, add summaries and create speaker notes. Finally, bring it all together with tips on design themes, layouts, and visuals to make your presentations shine.

Whether you're a business professional, educator, or team leader, this hands-on course will help you boost productivity and creativity using AI-powered tools in PowerPoint.

These courses are facilitated in English, and are open to people from different industries in all countries especially across Australia, New Zealand, Singapore, Malaysia and Hong Kong - this is a short but powerful learning experience that gives you global collaboration opportunities. Our trainers and processes have been refined to give you a personalised learning experience.

****Please note, these classes run to a very tight schedule, please follow the invitation and join the class 10-minutes prior to commencement so you are ready to participate and don't miss a minute!**
