Active Listening

**COURSE LENGTH: 0.5 DAYS**

Active listening is the key to effective communication as it requires a real two-way exchange of information between two or more people. There is a big difference between "hearing" someone speak and "listening with intent", so once you start using the active listening techniques taught in this course you'll experience better results in your relationships both at home and in the workplace.

The PD Training Active Listening training course teaches you crucial skills like how to listen attentively, how to show real interest, how to understand what you've heard and how to respond appropriately. This course touches on body language as well as specific types of questioning techniques. After learning and implementing these techniques you will become a more effective communicator in all situations.

PD Training's half-day Active Listening Training course is available online or can be customised and delivered at your chosen location.
