EMOTIONAL INTELLIGENCE (EQ) TRAINING COURSE OUTLINE

FOREWORD

Healthy Emotions + Clear Thinking + Appropriate Action = High EQ

Emotional intelligence is a skill. And like any other skill, you can get better at it with training and practice. It allows you to read the personality style of individuals and adjust your communications accordingly without being controlled by your underlying emotions.

This one day training course is useful for anyone who leads or works with other people, no matter what size the organisation. This course will focus on the five core competencies of emotional intelligence: self-management, self-awareness, self-regulation, self-motivation and empathy, and it also includes a review of your interpersonal skills via a scientifically proven personality profile.

You will learn to develop and implement these competencies to enhance your relationships in work and life by increasing your understanding of social and emotional behaviours, and learning how to adapt and manage your responses to particular situations. The PD Training Emotional Intelligence Course teaches you how to build stronger relationships, how to empathise with others, how to manage your stress levels, how to overcome challenging situations, how to diffuse personal conflicts and much more.
