

## MICROSOFT POWERPOINT 2010 INTERMEDIATE TRAINING

Generate a [group quote](#) today

### **COURSE LENGTH: 1.0 DAYS**

The PowerPoint 2010 Intermediate course was designed to help users create more effective and engaging corporate presentations.

Participants will learn key skills like setting up and editing themes and backgrounds to enhance the look and feel of the slides, creating basic and advanced animations for engaging the audience, inserting and editing shapes, inserting and editing images for a more emotional experience and how to insert, edit and format tables to display financial or mathematic information, and finally the use of SmartArt for crafting predefined word and image styling.

When these skills are combined with actual organisational information, participants will have the ability to create truly impactful presentations that will be remembered and appreciated by the audience.

This dynamic training course is available now throughout Australia, including Brisbane, Sydney, Melbourne, Adelaide, Parramatta, Canberra, and Perth.

## **MICROSOFT POWERPOINT 2010 INTERMEDIATE TRAINING COURSE OUTLINE**

---

### **FOREWORD**

Microsoft Office PowerPoint 2010 is the newest version of Microsoft's popular presentation application program. This course explores time-saving features that many everyday PowerPoint users don't take advantage of, including file management tools and options that will help you create an engaging, professional presentation.

Highlights of the course include information on file management tools; research features; themes and backgrounds; transitions; animations; all types of graphics (including shapes, tables, charts, SmartArt, pictures, Clip Art, photo albums, and screenshots); and an overview of some exciting new photo editing tools.

### **Managing PowerPoint Files**

To begin, participants will learn how to use Windows Explorer in PowerPoint and how to use other utilities like AutoRecover, the Document Inspector, the new Accessibility Checker, the Compatibility Checker, versioning, and media optimisation tools. Participants will also learn about security tools like passwords, encryption, digital signatures, and file properties. We'll also look at using other file formats, such as PDF, XPS, and PPT.

### **Adding the Finishing Touches**

This section will begin with an overview of PowerPoint's research tools: spell check, the thesaurus, and the translator. Next, we'll take a close look at themes, backgrounds, animations, and transitions.

### **Adding Art to Your Presentation**

Next, participants will learn about adding shapes and advanced types of text to slides.

### **Working with Pictures**

This section will focus on adding different types of images to a presentation, including pictures from a file, Clip Art, screenshots, and photo albums. Participants will also explore tools for managing, editing, and formatting pictures, including new artistic effects, new background removal tools, and picture styles

### **Adding Diagrams, Charts, and Tables**

Finally, participants will learn about PowerPoint's exciting SmartArt feature, plus how to add, edit, and format charts and tables.

---

## OUTCOMES
