MOTIVATING EMPLOYEES TRAINING COURSE OUTLINE

FOREWORD

Employee Motivation is becoming ever more important in the workplace and everyone agrees that a motivated workforce is far more likely to be a successful workforce. The happier and more professional an employee is, the better the results they will deliver for you. Of course, every employer wants to make sure that they have a workforce who will do their best, but this does not simply mean making the job easy for their employees. In fact, part of the problem of motivation is when the job is too easy, employees become complacent.

Therefore a challenge arises for all employers and management in delivering the right balance between a confident, motivated workforce and a workforce which is simply driven to attain stated goals. The perfect balance can be described as a mix between the pleasure of a comfortable working environment and the fear of failure, although in honesty it is more complicated than that equation suggests.

Regardless of how it is characterised, it is important to get the right balance in order to ensure that you have a motivated workforce. This Employee Motivation course is designed to teach participants how to get the best out of a confident, motivated set of employees, and to show them how to motivate that group.
