## PRESENTATION SKILLS TRAINING - ACCELERATED 1 DAY COURSE OUTLINE

---

### FOREWORD

To be a successful, professional presenter you need to be able to capture your audience and take them on the journey with you by using effective presentations, story-telling, interactive facilitation and of course engaging content. Good information, great ideas or the best of intentions only gets you half way there.

Positioning yourself and your ideas in a consistently positive and professional manner enables you to make a professional impression; the first time and every time. Raw information is logical, but being logical does not capture or hold anyone's attention for too long. Persuasive presentations start with raw information, then opinions are added and enhanced with creative imagery and given personality by the presenter. The more of the mind you tickle, the more retention and motivation you reap.

This **Presentation Skills** Training Program will teach you how to prepare effective presentations, and how to utilise the best method(s) for delivering your message while maintaining your audience's interest at all times.
