**COURSE LENGTH: 1.0 DAYS**

Supply Chain Management requires the effective management of the flow of materials, information and finances as they move from supplier to manufacturer to wholesaler to retailer and finally to the consumer. To better compete in a global economy, organisations are finding that a well-managed supply chain is the key to managing cash flow and ultimately business success.

The PD Training Supply Chain Management Training Course gives you a comprehensive understanding of key concepts like finances, logistics, tracking, monitoring, inventory management and delivery of products and services to build enhanced supply chains. Your organisation can improve customer satisfaction, increase efficiencies and reduce costs by improving the management of your supply chain.

This valuable and practical training course is now available throughout Australia, including Brisbane, Sydney, Parramatta, Melbourne, Canberra, Adelaide and Perth.

## SUPPLY CHAIN MANAGEMENT TRAINING COURSE OUTLINE

---

### FOREWORD

Rapid global expansion, rising fuel costs, environmental concerns and interconnected businesses can all have a tremendous impact on corporate strategies and costs. Organisations can no longer ignore what happens outside their own four walls, making supply chain management a critical skill that is in-demand in the marketplace.

This Supply Chain Management training course from PD Training helps meet this demand by providing you with the key skill sets to understand and implement an effective supply chain solution. You'll gain a better understanding of the finances, logistics and delivery of products and services and how those processes lead to increased efficiencies and competitiveness, while maximising customer value and satisfaction.

---
