TIME MANAGEMENT TRAINING COURSE OUTLINE

FOREWORD
Understanding, identifying and defining your long-term goals is the very first step when implementing an effective time management solution. With the broader goal in the background, you can now set a series of medium and short-term goals that will effectively lead you to achieving the cherished long-term goals in your life.

By applying the skills taught in the Time Management Workshops, you can optimise your efforts to ensure that you concentrate as much of your time and energy as possible on the high-payoff tasks. This ensures that you achieve the greatest benefit possible with the limited amount of time available to you. Contrary to popular belief, effective time management is not necessarily based on doing more things in less time.
