Microsoft
Visio 2010
Introduction

COURSE LENGTH: 1.0 DAYS

Creating a solid foundation in the use of Microsoft's Visio 2010 program requires a good understanding of its capabilities and the use of its various chart building functions.

The PD Training Microsoft Visio 2010 Introduction Training Course covers the common basic functions of Visio 2010, including using drawing tools and diagrams, working with pages, customising, reporting and formatting. By using the basic functions of Visio 2010 properly, you can create diagram networks, flowcharts, organisational charts and much more.

This engaging and practical training course is available now throughout Australia, including Brisbane, Sydney, Melbourne, Adelaide, Parramatta, Canberra and Perth.

MICROSOFT VISIO 2010 BASIC COURSE OUTLINE

FOREWORD

This Visio 2010 Introduction training course running in Sydney, Brisbane, Adelaide, Canberra, Melbourne and Perth, teaches the basic functions and features of Visio Professional 2010. Participants will learn how to use stencils, scale and resize objects, draw basic shapes and compound lines, and arrange objects. They will also learn how to create diagrams, work with text, apply formatting, work with background pages, and set file and print properties.

Finally, participants will create network and brainstorming diagrams, set shape properties, and create reports.
