What You'll Gain:

This Telephone Skills Training course will provide your staff with the skills they need to handle phone calls professionally. This will ensure that a positive image of your organisation is reinforced and strengthened with every conversation.

The telephone etiquette displayed by employees is indicative of a staff's willingness and ability to efficiently assist customers. The skills and attitude projected over the telephone can form a lasting impression in the minds of customers, making it a critical and memorable customer experience.

Virtual teams are becoming the norm rather than the exception, and one of their primary channels of communication is the telephone. Hence, it is imperative for virtual employees to also have a good understanding of business telephone etiquette in order to provide the best outcome for the customer.
